Here I go again
Late for another passing train
Oh, the good times we had, oh
Another morning comes
Left another record on
Had a good night, oh

Last thing I remember
Things were getting better
I'd go anywhere with you

So we rise
Off to make another run of it
To pass the time we say goodbye
Here we are enclosed
Wake me up and ready to go
Oh, the sun's out tonight

Last thing I remember
Things were getting better
Last thing I remember
Things were getting better
I'd go anywhere with you

Here I go again
Late for another passing train
Oh, the good times lie ahead, oh

Last thing I remember
Things were getting better
Last thing I remember
Things were getting better
Last thing I remember
Things were getting better
I'd go anywhere with you
