

## Said Affection

### "Down Again"

Visit "[Down Again](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Have you found another way  
another way to become  
become what you want to be  
just be what you become

why listen to what they say  
say what they believe  
believe what they have said

so are you  
down again  
you might be  
down again  
you could be  
down again  
thought you were  
down again

have you found another place  
a place where you can live  
living on your own  
won't do you any good

do we wait till something comes  
comes and finds out what  
what we've been doing

so are you  
down again  
you might be  
down again  
you could be  
down again  
thought you were  
down again

is that something real fuck you now it's something real
