I fuck every god damn celebrated day, but she minds
insomuch that no one
And nothing's so important than x mas day
She doesn't want to listen what I've planned in my mind
Well I can't wait any longer like that, all I want is
something more carnal
What d'ya think about the table? Come and try!
Unforgettable's fire consuming my veins
She likes x mas day
I've tried, yes I've tried to make her see reason but in
vain, she wants to be pure
She said it's a cure, holy day, high spiritual level or
other fuckin' crap
She likes x mas day
What a day, what a day, but not a fuckin' day!
She likes x mas day
Inside I hear a rumble shattering my mind! And more,
and more, and more
Hello, are you still there honey on the line?
I wonder why, you look for complication, it's an easy
situation, you and I
Inside that vibration we'll fly out of the world, oh no, no,
no! She said
I do not want disgrace this holy day doing such a
shame full thing on x mas day
I think I'm going mad!
She likes x mas day
