"Distance"

Visit "[Distance](#)" on MotoLyrics.com

Home, ooooooh

Oooohhhhhh, Um

Sitting on my own

A long way from home

Its a distance from you

And i'm thinking about you too

(Repeat twice)

On the other side if the world

Alone without my girls

Time was on my side

Spoke to you on the phone

I hope you're all alone

If i had things my way.....

But then i can't so let me say

Sitting on my own

A long way from home

Its a distance from you

And i'm thinking about you too

(Repeat twice)

Seems like its been so long

Cant remember where i'm from

My mission never ends

I've even made new friends

I know you're missing me

That's the way it's got to be

If i could come home for one more day...

But i can't so let me say

At this time i cannot feel you, i cannot see

They don't know i'm taken

I'm mistaken for being free

But i'll never know if your heart is with another, ooh!

It's a distance from you

It's a distance from you

Sitting on my own

A long way from home

Its a distance from you

And i'm thinking about you too

(Repeat twice)

It's a distance, It's a distance

It's a distance from you

At this time i cannot feel you, i cannot see

They don't know i'm taken

I'm sticking for being free

But i'll never know if your heart is with another, ooh!

It's a distance from you

It's a distance from you

Sitting on my own

A long way from home

Its a distance from you

And i'm thinking about you too

(Repeat 4 times)

Its a distance from you

Its a distance from you

Its a distance from you

And i'm thinking about you too

Its a distance from you

Its a distance from you

Its a distance from you

Its a distance from you

Its a distance from you

Its a dis-ahhhh

And i'm thinking about you too
