What will it take to open up the gates
Let down your hair, I'm climbing up to you
Stay up late, do the things we want to
If it's only tonight, it's alright with me

Pardon me, what's the meaning of the dreams
A secret lust in these hidden things
Face to face, can you show me how you play
And if it's only tonight, it's alright with me

Run into the night with you, yeayeah [x2]

Steal the stars as they're falling from the sky
Into our eyes and I don't even try to
Understand but I know that I want you
And if it's only tonight, it's alright with me

I hear you speak but I don't know what you mean
But I'll try, try to understand you
We'll check the map then leave like we plan to
If it's only tonight, it's alright with me

Run into the night with you, yeayeah [x3]
Outrun the cops, love your mother, fall in love with a
girl [x4]
Run into the night with you, yeayeah (with a girl) [x3]

Stay out all night with you
Yeahyeah
