I will love you forever, yes I will  
Follow you like a river, yes I will  
Swing low and swing high, the years may come and  
pass you by  
But all my life I'll love you still, yes I will

On the rock of faith we stand, yes we can  
But a long hard road may stomole you mm mm  
For every woman, every man, so much of love we don't  
understand  
But when is comes to take your hand, say, "yes, I will."

For today  
Come what may  
In this house of love we'll build say  
Yes I will  
Yes I will
