### "Come By Sunday"

I may be workin' Monday night  
And Tuesday might not be quite right  
So, come by Sunday, Sunday night I'm free  
Come by Sunday and spend some time with me

On Wednesday night I'm booked in full  
And Thursday nights are taffy pull  
So, come by Sunday, Sunday come for tea  
Come by Sunday and spend some time with me

It isn't necessary  
To call me on the phone  
If you decide to come on by  
I'll be waiting all alone

On Friday night I'm always out  
And Saturday I fall about  
So, come by Sunday. make it after three  
Come by Sunday and spend some time with me

I always make appointments, at least a week ahead.  
For six long days I go like mad, the seventh day I stay  
in bed.  
The whole week through I'm on the town, but Sunday  
always gets me down.  
So, come by Sunday. make it after three  
Come by Sunday, spend some time,  
Come by Sunday and stay awhile,  
Come by Sunday and spend some time with me
