* I was so
So lonely
Baby till I met you
Livin' on my own
And feel
That emptiness
Within me
Saturday a movie
Honey, Sunday alone
Coffee in the kitchen
Never heard the phone
Tuesday in the supermarket
Shopping for one
Waiting in the bus
Night, rain, or snow
Winter or summer
When I saw you silent
It made me hot everywhere
Felt that all the people
Standing by weren't there

** I'm walking on music
I'm walking on air
I'm walking on music
I'm walking on air

Happiness and harmony
With you
I feel so groovy
Stars, the sun
The moon
Above me
Love everywhere
Rainbow, child you with me
Not so clear
So near
We can change
A diamond
And the sand into stone
Move together
Solely

Like a river
To the ocean
We can plant
A root together
And watch it grow
Makin' love together
Take it nice and slow

* Repeat

** Repeat

You're my music
Every move
You're music
You're my heaven
My angel
Don't ever leave me
You're my only
This moment
Every moment
Music
You're my heaven
My angel

* Repeat

** Repeat (x2)
