All your love, baby, can it be mine?  
All your love, baby, can it be mine?  
I hate to be the one, the one that you left behind  
All your love, baby, don't you fool around  
All your love, baby, don't fool around  
Love is the one thing baby, that you wont find on the  
ground

All your love, I've got to have it one of these days  
All your love, I've got to have it one day  
Don't you leave me pretty baby, please come on back  
this way  
Come on back this way  
Gimme all your love  
Give it to me right now  
All your love  
Don't mess around me, I love you baby,  
All your love, I've got to have it one day...
