Admiral of the Sea

by Husker Du

I am an Admiral of the sea

And I'm known from far and wide inside the admiralty

What's this ahead in front of me

I am an admiral of the sea

I am an admiral of the land

And there's many men and armies under my command

When things are getting out of hand

I am an admiral of the land

I am an admiral of the air

I'll look at you and fly by I don't care

Look out be careful and beware

I am an admiral of the air

I am an admiral of the fire

But you probably could tell me by my black attire

Flames rising higher and higher

I am an admiral of the fire

(repeat verses 1 & 3
