Visit "[Silent Radar](#)" on MotoLyrics.com

I'm alone and I'm tired
I'm afraid and I'm tired
I'm away trying not to see
What the day brings on out of
me I'll stay right here
Gotta silent radar watching you
I'm the same ya I'm alright
Still alone no ones been by
Ashamed trying not to be
In my mind I'll always (be) (need) you right here
Silent radar watching you (me)
I'm thinking it over (I'm sure I'll find)
At the best of times I'm the (better life to live) Lucky
one
Getting closer and closer
silent radar sees everyone
Better kind of way of life to live
I haven't changed but I'm trying
In my mind I'll always be right here (hear)
