Things look cold for young John Morgan
We were dying all around him
Wise, the wise, our young John Morgan sing
Will we feed us all away?

We're all heroes
We got giant steps behind us

Just twelve years old, just trying to be a boy
There's not much time, just time to say, goodbye then
Take me away, I don't need to be here too
Will we feed us all away?

We're all heroes
We got giant steps behind us
Do you see giant steps behind me?

Our falling days won't end this way
Our falling days won't end this way
(Something's wrong but I can't see it)
Our falling days won't end this way
(Something's wrong but I can't see it)
Our falling days won't end this way
(Something's wrong but I can't see it)

But that was a long time ago
Yeah, that was a long time ago
That was a long time ago

Where we'd be when young John Morgan's south
Will the sky come falling down on us?
Wipe out time, have we forgotten you?
Will we feed us all away?

We're all heroes
We got giant steps behind us
Do you see giant steps behind me?
