It's quite a motion to step outside the cave
The crazy inner workings of a man
I guess you're on top again

Thinking how I'll take you there
My castle stands behind a man of stone
Guess you're on top again

Listen to the things you've heard and try to hold them
in
'Cause I'm coming back from miles of long
The crowd broke off and left the shape I'm in

So hot and pain 'cause feelings never change
A symbol's but a curtain around a man
Guess you're on top again

The doctors stay away, but my, the dogs are mighty
thin
So I'm coming back from miles of long
The crowd broke off and left the shape I'm in

And I with doubts so strong
With minds that aren't quite gone
Oh, with doubts so strong
Oh, with doubts so strong
Oh, with doubts so strong

I'm quite infringed 'cause feelings never change
The girl, you're chasing frequent, I'm a man
Guess it's you on top again

Thank you for tonight my darling, the rhythmic
comfort's in
So I'm coming back from miles of long
The crowd broke off and left the shape I'm in

And I with doubts so strong
With minds that aren't gone
Oh, with doubts so strong
Oh, with doubts so strong
Oh, with doubts so strong

Late at night, sometimes I hear the patriotic rumbling
little war cry
Or is it just the sound?
s a lot familiar turn the volume
down it scares me
Oh, how it scares me
Yeah, yeah, yeah, scares me, oh, oh

It's quite a motion to step outside the cave
The crazy inner workings of a man
I guess you're on top again

Has heaven seen the last of us or can we start again
So I'm coming back from miles of long
The crowd broke off and left the shape I'm in

And I with doubts so strong
And I with doubts so strong
And I with doubts so strong

And I, oh, oh, oh
Oh, oh, oh
Oh, oh, oh
