"Improv"

Visit "[Improv](#)" on MotoLyrics.com

[Opens with improvised worship]

(You have whispered these things to me)

You have caused flowers to grow in my fields
And you have brought bright colours to my head
And you have caused a cool wind to blow underneath
my window sill
And I rest here underneath your hand
[repeat]

You made all my deserts into gardens (x2)
You made all my ashes into beauty (x2)

I don't know where I'd be if I had not met you
I was a broken man when you found me (x2)

I became alive (x7)

What a joy it is to live again (x4)
