My love is my rock  
in the long, low, weary land  
Yes my love is my rock  
in the long, low, weary land

None of this moves me,  
I should be weeping but it only hurts when I yawn  
I let it blow through me, and it's gone!  
I'm dressed like a scarecrow  
Stripped of all my power, as if some judge in  
judgement said  
"Off with his great coat, and his head!"

My love is my rock  
in the long, low, weary land  
My love is my rock  
in the long, low, weary land  
My love is my rock  
in the long, low, weary land  
My love is my rock  
in the long, low, weary land

Meaningless movies  
on the screen behind the band that's blowing flowing  
shapes  
Half of their music is on tape  
My mentor and champion is busy tilting at the windows  
of his stately home  
The daemon he's grappling  
is his own!

My love is my rock  
in the long, low, weary land  
My love is my rock  
in the long, low, weary land  
My love is my rock  
in the long, low, weary land  
Yes my love is my rock  
in the long, low, weary land

His letter lies open

his accusations flow like poison from his every word  
My heart would be broken, but for her  
The fag-end of Winter  
I'm in shock! I'm on the ropes! I don't know what's  
become!  
She plucks the splinter from my thumb

My love is my rock  
in the long, low, weary land  
Yes my love is my rock  
in the long, low, weary land  
My love is my rock  
in the long, low, weary land  
My love is my rock  
in the long, low, weary land

In the weary land!  
My rock in a weary land  
My rock in a weary land  
My love is my rock in a weary land  
My love is my rock in a weary land  
In a weary land  
hey!  
A rock in a weary land

A rock in a weary land  
A rock in a weary land  
My love is my rock in a weary land  
My love is my rock in a weary land  
My love is my rock is my rock in a weary land  
My love is my rock is my love is my rock in a weary land  
My love is my rock is my love is my rock in a weary land  
My love is my rock is my love is my rock is my love is  
my rock is my love is my rock is my love is my rock is  
my love is my rock in a weary land  
In a weary land!
