I'm gonna suffer for you no longer
I'm gonna suffer for you no more
I'm gonna write you out of my life
And shut the door

You tried to drive a wedge between me and my friends
You pushed me to the edge time and again
I've been living in your shade since I can't remember
when
Now I'm bringing this charade to an end

I'm gonna suffer for you no longer
I'm gonna suffer for you no more
I'm gonna write you out of my life
And shut the door

There was subtlety and skill in your manipulative ways
You chipped away my will so you could make me stay
You soothed me with your voice until I obeyed
But I'm making my own choice from today

You used the tongue of love like a boxer uses fists
You contained me like a glove or a creeping cloak of
mist
You guaranteed the stars but there always was a twist
Now I see you as you are - Egotist !

I'm gonna suffer for you no longer
I'm gonna suffer for you no more
I'm gonna write you out of my life
And shut the door

I've got a ticket in my hand and I must be moving on
But I want you to understand that from the moment I
am gone
I release and let you go - you owe nothing now to me
I'm not angry anymore - I'm free !

I'm gonna suffer for you no longer
I'm gonna suffer for you no more
I'm gonna write you out of my life

And shut the door
