We're gonna take Jericho
By blowin them horns
We're gonna take Jericho
By blowin them horns
Cause that's what my Lord said to do
We're gonna take Jericho
By blowin them horns

We're gonna lift Him up
When we're way way down
We're gonna lift Him up
When we're on the ground
Cause that's what my Lord said to do
We're gonna lift Him up
When we're way way down

CHORUS

We can see Jericho coming
Down down down down down
Come on, brother, blow your horn
Cause you know that Jericho is coming
Down down down down down down down down

We're gonna cross that sea
Walkin on dry land
We're gonna cross that sea
Walkin on dry land
Cause that's what my Lord said to do
We're gonna cross that sea
Walkin on dry land
