When you've had enough
When you've got it bad enough
And you can't let go
When it comes to blows
And you start to overflow
But you can't get home
It's a subtle kind of cruel
It taps my spine
Here I'm drawing a line
I'm asking please
Don't you wanna be
Happy with me
Don't you wanna be
Happy with me
I'm afraid if you don't come around soon I'll turn
Sadder than you ever were
Then you'll learn loneliness is worse
You've gotta try
December's all alone
And he's calling me on the phone
But he sounds so cold

He says he loves me so

But how would I ever know

Certain words grow old

It's a vicious kind of catch

It sides me blind

Now I'm out of my mind

I wanna scream

Don't you wanna be

Happy with me

Don't you wanna be

Happy with me

I'm afraid if you don't come around soon I'll turn

Sadder than you ever were

Then you'll learn loneliness is worse

You've gotta try

Love liked me long ago

It had a way of making everyone the same

And now the angels

Must laugh and sigh to hear me

Pleading with you

And needing you this way

Oh why

Don't you wanna be

Happy with me

Don't you wanna be

Happy with me

I'm afraid if you don't come around soon I'll turn

Sadder than you ever were

Then you'll learn loneliness is worse

You've gotta try

To stay mine

All the way

Don't you wanna be

Happy with me

Don't you wanna be

Happy with me

I'm afraid if you don't come around soon I'll turn

Sadder than you ever were

It's got a way of making everyone the same (x4
