"Sleeping Where I Want"

This is my favorite disease
I am sleeping in his dreams
And the TV is on
It is seeping into me
It is guiding my dreams
It is only three
So it's jeopardy
You can go and burst my tiny bubble
Blow me off without a care
But I am sleeping where I want to.
This is my favorite time
I can sleep until the phone rings
And I doubt that it will.
You can go and burst my tiny bubble
Blow me off without a care
But I am sleeping where I want to
