Leave me lying here cause I don't wanna go (x3)

Tell me tell me what you really want from me

You gotta let me know

I'm falling off and I need you terribly

One down and one to go

Volcano girls we really can't be beat

Warm us up and watch us blow

Now and then we fail and we admit defeat

We're falling off we are watered down and fully grown

Leave me lying here cause I don't wanna go (x2)

A million miles of running and I hit the wall

I bounce back and I run some more

This is it I'm giving up I'm calling quits

So get down and meet me on the floor

Way to go way to flip off everyone

I steal your thunder than I try to bolt

But I could stand a little pity now and then

I'm falling off I am watered down and fully grown

Go I don't wanna go

I don't wanna go

I don't wanna go

I don't wanna go

I told you about the seether before

You know the one that's neither or nor

Well here's another clue if you please

The seether's Louise

1, 2, 3, wow

Leave me lying here cause I don't wanna go (x3)

Leave me, leave me, leave me

Go I don't wanna go

I don't wanna go

I don't wanna go

I don't wann go
