"A rock in a weary land"

Visit "[A rock in a weary land](#)" on MotoLyrics.com

My love is my rock
in the long, low, weary land
Yes my love is my rock
in the long, low, weary land

None of this moves me,
I should be weeping but it only hurts when I yawn
I let it blow through me, and it's gone!
I'm dressed like a scarecrow
Stripped of all my power, as if some judge in
judgement said
"Off with his great coat, and his head!"

My love is my rock
in the long, low, weary land
My love is my rock
in the long, low, weary land
My love is my rock
in the long, low, weary land
My love is my rock
in the long, low, weary land

Meaningless movies
on the screen behind the band that's blowing flowing
shapes
Half of their music is on tape
My mentor and champion is busy tilting at the windows
of his stately home
The daemon he's grappling
is his own!

My love is my rock
in the long, low, weary land
My love is my rock
in the long, low, weary land
My love is my rock
in the long, low, weary land
Yes my love is my rock
in the long, low, weary land

His letter lies open
his accusations flow like poison from his every word

My heart would be broken, but for her
The fag-end of Winter
I'm in shock! I'm on the ropes! I don't know what's
become!
She plucks the splinter from my thumb

My love is my rock
in the long, low, weary land
Yes my love is my rock
in the long, low, weary land
My love is my rock
in the long, low, weary land
My love is my rock
in the long, low, weary land

in the weary land!
My rock in a weary land
My rock in a weary land
My love is my rock in a weary land
My love is my rock in a weary land
In a weary land
hey!
A rock in a weary land

A rock in a weary land
A rock in a weary land
My love is my rock in a weary land
My love is my rock in a weary land
My love is my rock is my rock in a weary land
My love is my rock is my love is my rock in a weary land
My love is my rock is my love is my rock in a weary land
My love is my rock is my love is my rock is my love is
my rock is my love is my rock is my love is my rock is
my love is my rock in a weary land
in a weary land!
