Corn circles, appearing all over the land
Corn circles, appearing all over the land
Nobody knows where they come from
Nobody understands

Corn circles, mysterious symbols in the fields
Corn circles, mysterious symbols in the fields
No one knows are they phony
Or maybe are they real?

Corn circles, hey
Corn circles, hey

Corn circles, is somebody playing a trick?
Corn circles, pixies, witches, hoaxers take your pick
Throw a few theories out there
See what sticks

Corn circles, oh
Corn circles, hey

Corn circles, patterns in the gold
Corn circles, pretty patterns in the gold
Like something out of the future
Or something very old

Corn circles, hey
Corn circles, hey
