You just stepped into the main track  
Climbed down off the fence  
Words are your weapon  
Lies are your defense

I know what you want  
And I see what you see  
You're looking for somebody  
But he isn't me  
Find yourself another  
We will not be lovers

How your eyes are like tortures  
And your presence is bliss  
I never knew time  
Could speed and zip like this

The touch of your flesh  
Is tough to resist  
Planets collide, collide, collide  
At the smack of your kiss  
But you can kiss your brother  
Because we will not be lovers

Now you're pulling down curtains  
Sparking old flames  
Causing disturbance  
Crying for shame

Knocking on doors  
Abusing my name  
Casting up doubt  
Throwing your blame  
But you can throw it at your mother, your mother  
Because we will not be lovers

Now the world's full of trouble  
Everybody's scared  
The landlords are frowning  
Cupboards are bare

People are scrambling

Like dogs for a share  
It's cruel and it's hard  
But it nothing compared to  
What we do to each other, to each other  
We will not be lovers

We will not be lovers  
We will not be lovers
