Time for another video game analogy  
She wins, flawless victory, fatality  
Eyes locked on the pretty girl of the party  
Insert my coins now  
Let's get this party started right

Slide up to this girl with perfect timing  
She smiles at somebody just behind me  
Mind locks when I go to say the perfect line  
She passes me by  
Denied

Let me try this all again

You've gotta be  
An enemy  
Like Wario or Dr. Wily  
I'm learning from mistakes I make each time I die  
I'm fine, I'll retry  
You've gotta be  
An enemy  
Like Wario or Dr. Wily

You're the princess and last boss at the same time  
I got shot down but I'll try it again  
I've entered my code and now I've got 99 lives

I need (I need) a strategy guide to get me (get me)  
To the other side of this draw bridge  
I'll pull it out from your feet  
And make you fall in love with me  
Timing is key  
I'll make you fall in love with me

You've gotta be  
An enemy  
Like Wario or Dr. Wily  
I'm learning from mistakes I make each time I die  
I'm fine, I'll retry  
You've gotta be  
An enemy

Like Wario or Dr. Wily

You're the princess and last boss at the same time  
I got shot down but I'll try it again  
I've entered my code and now I've got 99 lives

up, up, down, down, left, right, left, right,  
B, A, select, start, now I'll play you all night [x 4]

You've gotta be (up, up, down, down, left, right)  
An enemy (left, right)  
Like Wario or Dr.Wily (B, A, Select, Start)  
I'm learning from mistakes I make each time I die  
I'm fine, I'll retry  
You've gotta be (up, up, down, down, left, right)  
An enemy (left, right)  
Like Wario or Dr.Wily (B, A, Select, Start)

You're the princess and last boss at the same time  
I got shot down but I'll try it again  
I've entered my code and now I've got 99 lives
