Rational mind says it's for faint  
My senses tell me it is not  
That same old game, the rules have changed  
But somehow it remains the same  
I play for highscore  
This can't be all that has changed  
This can't be all that makes the difference  
I play for highscore  
I take a free fall  
And i am sure, yes pretty sure  
That this time intention can't be so wrong  
This can't be all  
Yes and i am sure, yes i'm pretty sure  
That this time intention can't be so wrong  
Yes and i'm aware that i might be there  
Sharing a sunset all by myself
