Rational mind says it's for faint
My senses tell me it is not
That same old game, the rules have changed
But somehow it remains the same
I play for highscore
This can't be all that has changed
This can't be all that makes the difference
I play for highscore
I take a free fall
And i am sure, yes pretty sure
That this time intention can't be so wrong
This can't be all
Yes and i am sure, yes i'm pretty sure
That this time intention can't be so wrong
Yes and i'm aware that i might be there
Sharing a sunset all by myself
