rational mind says it's for faint
my senses tell me it is not
that same old game, the rules have changed
but somehow it remains the same
i play for highscore
this can't be all that has changed
this can't be all that makes the difference
i play for highscore
i take a free fall
and i am sure, yes pretty sure
that this time intention can't be so wrong
this can't be all
yes and i am sure, yes i'm pretty sure
that this time intention can't be so wrong
yes and i'm aware that i might be there
sharing a sunset all by myself
