"Made For You"

Darling, you should know by now
But I know I need to tell you how
I don't always have the words
But I pray that it's my heart you've heard
I love to hear your heart
Telling of your love
Telling me you'll stay forever
I thank you for your touch
And for loving me that much
To know the things I need to hear....
Remember I promised forever
Life brings change
But my promise is the same
And through these years we've been together
Life has made us grow
But through it all I know
No matter what may come
My heart was made for you forever
Darling I need to confess
It's hard to show my weakness
I want so much to show you strength
Without revealing everything
You know what I always say
