Lay it down
Lay it down
I am longing for the day when You are here
When Your face is clear
And we are free from all our fear

The closer we are You know we can't hide it
The closer we are You know we can't fight it
You're dear to our hearts
We'll see this through
With eyes on the stars we wait for You

Bring me down
Bring me down
I am ready to believe that You are near

You're close You hear
Every whisper, every tear

I'm here
You've brought me closer than I thought
We'd be lost without You here
I'd be lost without You here

The closer we are You know we can't hide it
The closer we are You know we can't fight it
You're dear to our hearts
We'll see this through
With eyes on the stars we wait for You

Hear me out
This is what I have to say
Hear me now
Please don't turn Your back to me
I need Your love
I need Your love

The closer we are You know we can't hide it
The closer we are You know we can't fight it
You're dear to our hearts
We'll see this through

With eyes on the stars we wait for You

The closer we are

The closer we are

The closer we are
