"A Love"

Visit ["A Love"](#) on MotoLyrics.com

Well I've got a love tall as a redwood
I've got a love as high as the sky
And I've got a love that will go on forever
General Sherman would open his arms

Well I've got a talent sent down from heaven
I've got a gift that I'll use everyday
Cause this is my place my place in the system
Using the wisdom that I learned on the road

I got a sweet sensibility and a burning desire
An existence so different but perfectly charmed
And I hold you in the best regard
As the power will touch you entrance you and light the
way
That's right, oh that's right

I've got a touch you'll remember forever
As I hold you the world is your friend

Cause' I'll save you if you'd only save me too
So let's hear those notes forever as the waves roll away

So as I wake I wake in the morning
With you laid laid right by my side
Find some serenity from the warmth in your heart
Cause you love me just as much if not more than
myself
