"Gravity"

Visit "[Gravity](#)" on MotoLyrics.com

And I ride, through the times
And I see, all of your thoughts
And if you need a little cash to keep you going, I'll sort
ya
Friends, girls, whatever works, philosophy, that works
for me, too right

Give me some gravity, girl
That awe inspiring optimism straight from your smile
and
Give me some gravity girl, with dates on the calendar,
we're surfin the blue

And my eyes, are open wide!
I feel the warm handed spirits, on my back
I took a trip on 75 down to Dallas, on Friday night
Took in all the sounds as the sun went down, trees
green, golden green.

Give me some gravity, girl
That awe inspiring optimism straight from your smile
and
Give me some gravity, girl, with dates on the calendar,
we're surfin the blue

The longest summer of my life
Smokey nights are coming soon
Stop by the Village Inn for a bite
Glass of water by my bed at night
I've seen the passion runnin high
My soul so alive.
