Callin my name  
This place is kinda different, how you doin today  
Glad to meet all these people, glad to shake em by the  
hand  
Don't you know I'll be back, another day  
I see you calling, I see you smile  
I see you calling, I see you smile

I'm on route 66 dollars, and there it is for your rent  
Empire bar for a beer, memories I hold so dear  
Riverside with the top down, grand lake for the day  
And God always answers his kneemail, whatever you  
perceive it to be

And I'll be looking back, over my shoulder today  
Will you talk about the songs I sang, and oh that's the  
thing

I see you calling I see you smile  
I see you calling I see you smile

That's the thing, that's the thing  
Comin to my home, back to my home  
I see you calling, I see you smile  
I see you calling, I see you smile
