"Recognise"

Visit "[Recognise](#)" on MotoLyrics.com

Did you recognise the difference in me, in my mind, in
my mind

Did you recognise the changes in me, in my life, in my
life

Circumstances changed over time, over time, over
time

But I realized the value in me, did you see, did you
see?

Crossing the border of life as opposed to existence
and wasting your time

Grant me the gift to express how I'm feeling today
and achieve what is right, for me!

And I recognised the difference in you, how you talk,
how you talk

And I recognise the way that you feel, what you want,
what you want

Comprehending the thoughts we possess, as a truth, as
a truth

Understanding ideas of life, and how it seems, how it
is.

Crossing the border of life as opposed to existence
and wasting your time

Grant me the gift to express how I'm feeling today
and achieve what is right, for me!
