

## Samples, The "Going Through Changes"

Visit "[Going Through Changes](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Somewhere in the sky  
There is a star named after you  
Named after all the changes  
That we've been going through

Somewhere in my heart  
There's a scar that's left from you  
It's healing there so slowly  
It's the most that I can do

We're going through changes  
We're going through changes

Tear yourself apart  
Keep your chin up high  
The only things that matter  
Will always make you cry

Another simple change  
To take my mind away  
Take it to the river  
And let it wash away

We're going through changes  
We're going through changes

How funny this is to be alone, so long  
Making steps to get me farther  
The light ahead is just a cool, sweet song  
It plays to me when things get harder

We're going through changes

A million miles out there  
I think I see your face  
Shining down from Heaven  
In its state of grace

Rock me on the water  
Kiss me in the sun  
Every brand new morning

Changes what's been done

We're going through changes  
We're going through changes

Somewhere in the sky  
There is a star named after you  
Named after all the changes  
That we've been going through

Somewhere in my heart  
There's a scar that's left from you  
It's healing there so slowly  
It's the most that I can do

We're going through changes  
We're going through changes
