

Samples, The "Great Blue Ocean"

Visit "[Great Blue Ocean](#)" on MotoLyrics.com

Great blue ocean under me
Take me far away
To the land of safety
Up over the silver waves
Just above the sky is filled
With galaxies of stars
I wonder how I made it here
And how we came this far

Great blue ocean under me
Take me from this place
Walked inside a city
Gone without a trace
Just above the moon is full
Shinning down on me
Shinning down on everything
As far you can see
You can see
As far as you can see
Great blue ocean
Great blue ocean
Great blue ocean
Great blue ocean
Great blue ocean

Great blue ocean under me
You never asked me why
The clouds above are resting
Like islands in the sky
Just above the moon is full
Shinning down on me
Shinning down on everything
As far you can see
You can see
As far as you can see
Great blue ocean
