If you meet me by the river
I'll tell you what's forever
If you hold me there forever

I remember dying
I remember dying

But as I drift to sleep
When I just can't yet
Twenty thousand sheep
Some I will forget

Looking up as if
I was still awake
Looking up as if
You were still

If you meet me by the river
I'll tell you what's forever

I remember dying
'Cause I remember dying
'Cause I remember dying
By the river, by the river

'Cause I remember dying
'Cause I remember dying
'Cause I remember dying
By the river
