Visit "[Loosing End Of Distance](#)" on MotoLyrics.com

Ive been on the loosing end of distance
A little too far to be close
On every corner I'll be looking
Wiping my tears away

Chorus: I've been looking everywhere for you

Nevermind the streetlights
For every shadows shaped like you
Every call keeps me running to the phone
Operator tell me how to get this off of me

Chorus

I've been waiting all my life
Never holding on too tight

Purple roads that wilde away
leaving me behind
cuz my love was there to stay
Its up to you to find

From the bottom of the ocean
To the mountains of the moon

Chorus
