

Samples, The "Nature"

Visit "[Nature](#)" on MotoLyrics.com

Nature, it's all around me
Nature is so astounding

Puts me on a beach
Swims beneath the sea
It's never out of reach
It's even you and me

Nature, it's all around me
Nature, I hope it finds me

Takes me from a book
Pictures I can't feel
But outside when I look
Nature's something real

Nature, it's all around me
Nature, I hope it finds me

It's hiding up a tree
Sees me looking down
Look at you and me
Nature can be found

Nature, it's all around me
Nature, I think it found me

I wonder where it starts
I wonder where it goes
Maybe in our hearts
Only nature knows

Puts me on a beach
Swims beneath the sea
It's never out of reach
Even you and me
