"Nothing Lasts For Long"

Take my hand
And walk with me
And tell me who you love
And make a wish and you can see
The first star from above

Ya ever feel so deep and lost
Somewhere in the past?
Is it wrong to not hold on
if nothing ever lasts?

Maybe nothing lasts for ever
Not the mountain or the sea
But the times we have together
They will always be with me

The sun is down and the wind is calm
As it gently fades away
I wonder then and I think of you
And how nothing ever stays

Take my hand
And walk with me
And tell me who you love
Make a wish and you can see
The first star from above

Nothing lasts for long (4x)
