### "Walkin Through The Snow"

Visit "[Walkin Through The Snow](#)" on [MotoLyrics.com](https://MotoLyrics.com)

one night i was walkin through the snow  
i was lookin for my foot prints  
they were lost underneath  
maybe they were someone elses

one night i was walkin through the snow  
i was hopin i could be there  
keep you warm but im alone  
as it falls from the thin air

one night i was walkin through the snow  
one night i was walkin through the snow

one night i was walkin through the snow  
just me and the thousand ways of thinking  
to soon to wanna be alone  
up above on a cold night seeking

one night i was walkin through the snow  
one night i was walkin through the snow

one night i was walkin through the snow  
i was lookin for my footprints  
they were lost underneath  
maybe they were someone elses

one night i was walkin through the snow  
i was hopin i could be there  
keep you warm but im alone  
as it falls out from the thin air

one night i was walkin through the snow  
one night i was walkin through the snow  
one night i was walkin through the snow  
one night i was walkin through the snow  
one night i was walkin through the snow  
one night i was walkin through the snow...
