I need it
For my soul X 4

It's Running through
My bones X 4

Uphill road X 4

I gotta go X 4

If you want it bad enough
Baby you'll make it
Running through an open field
Keep chasing

The light X 4

Burn bright

Take a leap of faith
Baby just keep pacing
Your life's in your hands

Stop wasting
Your time X 5

Chorus

The thrills of moving up
The whole world going nuts

That's me and you on top
Yes that's me and you on top Â...

Second verse

Searching for the door
For the door X 2

Waiting on my turn
On my turn X 4

Uphill road X 4

I gotta go X 4

Takes a thousand tries
Just to win, Keep chasing

Your door's round the corner
Keep searching
For the light X 4

Burn bright

Your more than the persona your faking
You got stars in your eyes
Stop wasting
Your time X 4

Chorus

The thrills of moving up
The whole world going nuts

That's me and you on top
Yes that's me and you on top Â...

Bridge

If you rock with me
I can take you far
If you rock with me
I'll make you a star
If you rock with me
We can make it large

Cuz I believe in your star.

Chorus

The thrills of moving up
The whole world going nuts

That's me and you on top
Yes that's me and you on top
