Verse

Slowly losing my grip/

Reality's not a good friend to me

As I float right through my trip/

The truth starts rushing back to me

I want you baby, I need you

You complete a part of me

I feel you baby, I believe you

You know the darkest parts of me

Hook

I know you know it too, I know you feel it too/

We are so damn in tune/

Atmosphere in this room, Smell of smoke and perfume/

How could I have lost you?/

Baby you know what I like, You know what I'm like/

Got that rush through my spine/

Oh yes I'm feeling it now, Yes I'm missing it now/

I feel the rush is like wow/

Rush is like wow x 2

Verse

Whenever I see you my heart skips/

A million beats and takes a dip/

I know exactly what I miss, The butterflies I get when  
you kiss my lips/

I'll flaunt you baby, I'll lead you

Make me feel complete again

I'll treat you baby, be with you

Lose ourselves in the rain again

Hook

I know you know it too, I know you feel it too/

We are so damn in tune/

Atmosphere in this room, Smell of smoke and perfume/

How could I have lost you?/

Baby you know what I like, You know what I'm like/

Got that rush through my spine/

Oh yes I'm feeling it now, Yes I'm missing it now/

I feel the rush is like wow/

Rush is like wow x 2
