How should I'm
Down this hill
Along time ago
They saw that I'm seen
Thinking in she
And all it's goes
Just go off
Outside of me

How she smile me
How she smile me

Downhill, downhill
Just me, just me

That's so wrong
But maybe it's right
Downhill down
please stop this now
I'd like your face
And all it comes
Just go off
Outside of me

How she smile me
How she smile me

Downhill, downhill
Just me, just me.
