Lyrics by Willie DE

Music by Willie DE

She put her smokes in her pocket,

Lookin' for the highway train.

It's 742 when she's talkin' to you,

Tellin' you what she's gonna do
(Chorus)

I talk to my robot when I'm asleep.

My robot keeps me company, yeah.
I said, "Don't tell me no lies,

I will have to spy upon you."

Don't walk away;

There's much more to say.
Chorus
(Bridge)

Gotta be self taught nobody else can

Gotta learn it solo only you understand
Gotta go alone ain't no other way

Freedom ain't cheap today
Solo
Gotta be by myself that's the score

Don't wanna hurt no more
Nobody to help when your down

You gotta swim or drown
Chorus
