Again with me, in this search
Could be low
All ready go, to the race
To get back
Wake in night, so long
And it's weight to me

Give me something, to be right
Cause need it
Show me the right way
To cross anyway
I'll promise, that I'll be fine
I'll be fine there

With all the time, against me
Can't in more
And jump the bridge, that's so long
And so deep
Come everyday, come to me
Close my arms, and feel again

Again with me, in this search
Could be low
All ready go, to the race
To get back
Wake in night, so long
And it's weight to me

To my...

To my
To my...
Shhh...

To my
To my...
Ohhhh oohhh!
