What were you doing in my dream last night  
Hunnie?  
Well I thought I locked that door up tight,  
Baby.  
Well it's a mystery to me  
How you keep on slippin'  
In my mindâ€¦  
And it's downright dirty that this 'ol wound  
Won't heal with time

Well you could wash my bain  
You could tear out my heart  
But I would never forget you  
(neverâ€¦)  
You could change my name  
I could make a new start  
But I would never forget you  
(neverâ€¦)

And it's killâ€¦ kill.. killin' me  
It's Kill Kill Kill Kill Killin' me  
That I'm still in love with you

Just when I think, I've got you in safe keeping  
That's when your memory, it comes round creepin'  
Well it's an ache I can't shake  
It's creeped down deep down to my core  
But babe I can't fake it, I can't take this heartbreak  
Anymoreâ€¦.

Well you could wash my bain  
You could tear out my heart  
But I would never forget you  
(neverâ€¦)  
You could change my name  
I could make a new start  
But I would never forget you  
(neverâ€¦)

And it's Killâ€¦ Kill.. Killin' me  
It's Killâ€¦ Killâ€¦. Killin' me

That I'm still in love with you

(it's killin' Me)

I asked you please to leave my heart  
But you refused to go  
I can't take this pain much longer  
You insist on teaching me what I already know  
Absence made this heart grow fonder

Ahh

[meow]

Well you could wash my pain  
You could tear out my heart  
But I would never forget you  
(never)

You could change my name  
I could make a new start  
But I would never forget you  
(never)

And it's Kill Kill Killin' me  
It's Kill Kill Killin' me  
That I'm still in love with you.
