Lie, la-la- lie, la-la-la-la-lie..

I've got a real one for you.
I'm done with compromise.
Lies are wide and black and blue.
They hide inside those big brown eyes.
You've gotten dirty, angel.
Aren't you ready to come clean?
I am looking down with sorrow.
You say that I'm being mean...

Don't you hear me when I say I'm lonely?
Do I kid myself to think that I... I... I...
Am your one and only.

I can't tell you how many times I've cried
Over you, my baby..
I've had one too many sleepless nights
Over you, my baby..
Baby...

Can't you see I'm wounded, baby?
Go ahead and put me down!
You keep saying that I'm crazy.
There's just rumours going round.
I am dying to believe you.
Tell me what should I do?
Who would want to play a fool
And then find out that it's true?

Don't you hear me when I say I'm lonely?
Do I kid myself to think that I... I... I...
Am your one and only.

I can't tell you how many times I've cried
Over you, my baby..
I've had one too many sleepless nights
Over you, my baby..
Baby... Baby.

Cross your heart and hope to die

White or black it's still a lie.
Every city that you fly
I sit home and wonder why.
While you're out there getting high
One more night for me to cry.
Can you look me in the eye?
Cross your heart and hope to die,
Hope to die. (x4)

I can't tell you how many times I've cried
Over you, my baby...
I've had one too many sleepless nights
Over you, my baby...
(chorus x2)
