In the middle of the night
I got me a little light
It burns on

I can feel it changing me
I can see what I believe
I get turned on

Open up and breath it in
It'll come around again
It burns on

And you're not that far behind me
And you're not that far behind me

The space that I'm under
Is making me wonder
What is out there

When gravity frees me
It will release me
Into the air

Suddenly I have new eyes
Got my baby by my side
It's so pure

I wanna watch my lover shine
Did you know that you are mine?
And I'm yours

And you're right there beside me
And you're right there beside me

The space that I'm under
Is making me wonder
What is out there

When gravity frees me
It will release me
into the air

I'm trippin' on starlight
Everything's all right
Everything's all right

And I feel...
And I feel love, love the world
And I feel love, love the world
around me

The space that I'm under (The space that I'm under)
Is making me wonder (Is making me wonder)
What is out there (What is out there)

When gravity frees me (When gravity frees me)
It will release me (It will release me)
Into the air (Into the air)

I'm trippin' on starlight (I'm trippin' on starlight)
Everything's all right (Everything's all right)
Everything's all right (Everything's all right)
