Baby Baby
I, could not believe it
When I found the letter
You left it on the table

I couldn't miss it
At least you coulda hid it
I guess in a way
You did me a favor

It's all about how you
Loved to smell her skin
While she's sleepin
How you loved to touch her

Something about
Some ciggarette, somewhere
But I don't smoke
Do not smoke (x4)

Baby Baby
Do you call her baby?
Bet you're gonna get it
But I heard you say she's pretty

Do you curl up
Cozy by the fire?
Maybe I should tell her
That Baby you're a liar

Didn't mean to wake you up
Lay down your sleepy head
Didn't mean to wake you up
Go back to sleep and dream
And dream of her holding
Dream of her holding (x4)

Baby Baby
Let me tell you something
One day you'll be sorry
One day you'll be bitter

I hate to be the one
To break it to you
But that girl is a bitch
Don't forget I'm finished

I didn't mean to wake you up!
I didn't mean to wake you up!

I didn't mean to wake you up!
Lay down your sleepy head

I didn't mean to wake you up
Go back to sleep and dream of her
Dream of her holding you
Dream of her holding you (x2)

Ohhhhhhhhhhhhhhhhhâ€¦..
