I bet this is the end  
You said it never exists to your friends  
Now I'm drowning in my own tears  
'Cause you fulfilled all my fears

Because of the bright lights  
(OOOOHO)  
People don't seem the same  
There's more than just one side  
There is a difference

And I've been waiting for so long  
To be the one - to be with you  
Now I know the time was wrong  
It has never been so true

Because of the bright lights  
(OOOOHO)  
People don't seem the same  
There's more than just one side  
There is a difference  
X2
